Who We Serve

Empowering teams with data-driven strategic intelligence.

PRIMARY

Product Managers

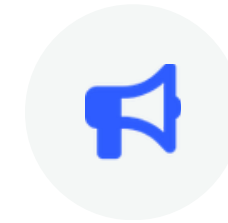

- Small Startups (Seed to Series A)
- Age 25-40
- Need quick insights, can't afford consultants
- Want data-driven decisions without data teams

SECONDARY

Small Business Owners

- \$500K - \$10M Annual Revenue
- Age 30-55
- Data sits unused in spreadsheets
- Need affordable analytics with clear ROI

TERTIARY

Marketing Leaders

- Managing 3-10 person teams
- Age 32-50
- Must justify marketing spend with data
- Can't afford \$80K+ data analyst

Our Position in the Market

"DataWise delivers instant, AI-powered strategic recommendations from your customer data - transforming weeks of expensive analysis into seconds of actionable insights"

WE'RE NOT:

- ✗ Analytics platform (no dashboards)
- ✗ Data Q&A tool (no simple answers)
- ✗ Just another AI product

WE ARE:

- ✓ Strategic Intelligence as a Service
- ✓ Consultant replacement
- ✓ Proactive recommendations

Brand Voice in Action

Communicating complex intelligence with clarity and confidence.

DataWise Insights PROBLEM-FOCUSED "Your customer data has answers. You just don't have time to find them. DataWise analyzes patterns and tells you exactly what to do next. 90 seconds. Clear recommendations."	DataWise Insights VALUE-DRIVEN "What would you do with an extra \$4,999? That's what you save using DataWise instead of hiring a consultant. Same insights. Faster."	DataWise Insights EDUCATIONAL "Three questions every customer dataset can answer: Which segments to prioritize? Which markets to expand to? Which strategies drive revenue? DataWise answers all three."

How DataWise Came to Be

The Mission: Democratize strategic intelligence for resource-constrained teams.

01

TECHNICAL

Building AI that thinks strategically, not just analytically.

Solution: 47 prompt iterations encoding proven business frameworks.

02

RELIABILITY

Users can't accept downtime for critical business decisions.

Solution: Hybrid architecture: AI primary + rule-based fallback = 100% uptime.

03

TRUST

Asking users to trust automated strategic recommendations.

Solution: Radical transparency: every recommendation shows reasoning and methodology.

ACHIEVEMENT

Validated with real users implementing 100% of recommendations.
